Tandem

Meet the Cascades PRO Tandem[®] Family

Cascades PRO[®]

All clean. All good.

The family that protects you all the time

Where hygiene meets design. Our thoughtfully crafted family of dispensers provides reliable hygiene solutions that help you save time and money, all while prioritizing health and protection.

Design-Driven

Sleek and modern look.

- Designed to enhance the image of your establishment with an upscale, seamless design.
- From the janitor to the building service contractor and of course, to the end user, Tandem® provides features that enhance the user's experience.
- Angled paper exit allows an intuitive and natural paper grabbing movement.

Productive

Built-in cost savings. Our functional features help you increase your capacity, reduce waste and costs.

- The stub roll function enables you to use 100% of every roll, reducing waste.
- Optimized paper usage through consistent or programmable lengths and optimized spin control.
- Plus, a number of different capacity options available depending on dispenser and refills.

Hygienic

Attention to detail: the foundation of impeccable hygiene.

- Touchless mechanism that limits the spread of germs.
- Rounded design prevents dirt accumulation.
- Textured finish to repel dust and fingerprints.

Sustainable and durable

We maximize positive impact by minimizing your footprint.

- We offer value-added sustainable towel and tissue refills that are certified by third-parties.*
- More than 75% of Cascades PRO Tandem® refills are made from 100% recycled fibres.
- Our dispensers are designed to minimize waste and are built to last.

Product support

Focused on making your life easier, we're here to help!

- QR code inside each dispenser cover for quick access to product support.
- Dedicated product pages on our Cascades PRO® website and access to customer service whenever you need it.
- Product warranties we stand behind and easily replaceable parts.

Efficient

Cleverly designed to provide a feel-good experience for both guests and custodial staff, while reducing maintenance time.

- Easy to install.
- Built-in level.
- User-friendly refill loading instructions inside each dispenser cover.

Quick-check design

Take the guess work out of paper levels.

For end-users and staff, get an instant view of paper levels with a cleverly designed translucent center-strip and top.

Quick-load technology

Locked & loaded.

- Intuitive color-coded refill systems allow custodial staff to quickly refill dispensers in a fail-safe manner.
- A unique, easy to use, blue key that works for all Cascades PRO Tandem® dispensers.
- Fast and simple key lock can be changed to push-to-open with the slide of a finger.

Universal housing

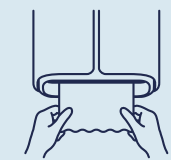

Back housing of all Cascades PRO Tandem® dispensers fit main competitors' configurations, maximizing installation speed and minimizing wall damage.

* For more information on our products and certifications, please see page 11.

Hand Roll Towel Systems

Our hand towel dispensing systems are designed to deliver a seamless experience while promoting superior hygiene. With sleek, modern designs, they reduce operating costs and maximize efficiency by utilizing 100% of every roll.

C340 Mechanical No-Touch Dispenser

Strong and dependable, built for consistent performance

This robust and reliable mechanical hands-free dispenser is perfect for high-traffic environments like manufacturing facilities, venues, airports, and schools.

Distinctive Features

Robust and reliable

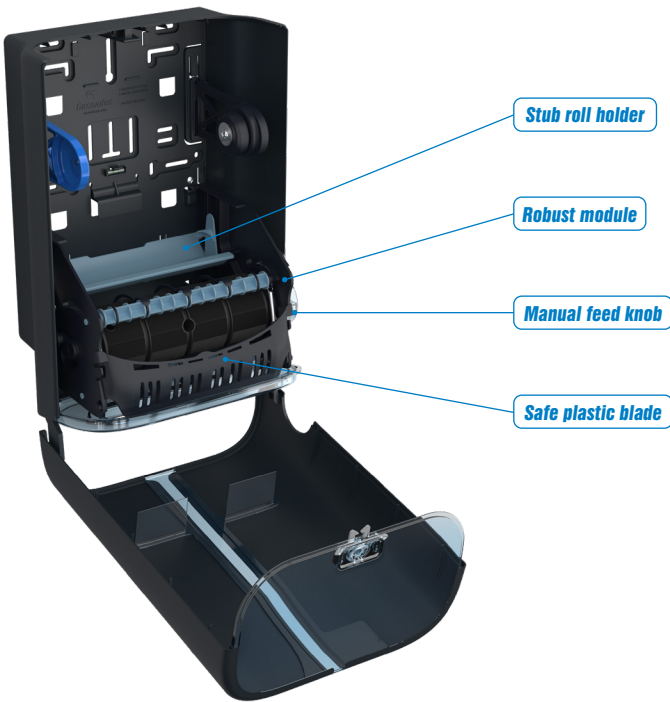

This high-performing, robust module ensures limited overspin, ensuring a seamless user experience each and every time.

Controlled dispensing, every time

Offers a truly hygienic, no-touch experience, and you can count on a consistent 9.5” of paper with each pull. Plus, guests can easily retrieve paper with the knob if the tail isn’t exposed.

Compact and flexible

Compatible Tandem® refills work with both the C340 and C350 dispensers, offering versatility to meet your specific needs.

C350 Electronic No-Touch Dispenser

Efficient and customizable for your unique needs

With its fast dispensing and electronic capabilities, this dispenser suits office buildings, high-end locations, and high-traffic areas. It features customizable settings for paper length, dispensing mode, and time delay.

Distinctive Features

Smart LED indicators

LED light will blink when it’s time to change the stub roll and the interior light will turn on when batteries need to be changed.

Intuitive and reliable sensor

Large sensor zone allows quick on-demand paper supply, providing a truly touchless experience.

Customizable settings

Easy to access and use. Choose your preferred settings between exposed sheet or sensor mode, sheet length (S= 8” M= 12” L= 16”) and time delay.

Introducing our timeless bath tissue dispensing systems — crafted for efficiency, hygiene, and ultimate convenience. Every detail is engineered for reliability, ensuring peace of mind with every use. Offered in High Capacity (HCB) or Jumbo Roll (JRT), choose the system that best suits your business needs.

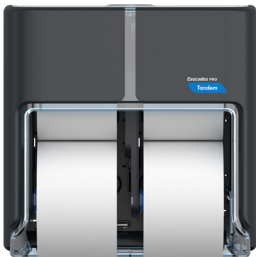

C310 — C312 — C314
High Capacity Bath
(HCB) Dispensers

C312 – Side-by-Side

C310 – Top Bottom

C314 – Four-roll

Home-like comfort,
away from home

Choose our high capacity bath systems for a sleek, upscale experience that balances comfort, cost, and capacity. Their compact design optimizes space and enhances restroom efficiency.

Distinctive Features

Minimize waste with every use
Expertly designed spindle limits the amount of paper dispensed with each pull, minimizing waste, paper consumption and risk of clogging.

Choose the capacity that's right for you
Choose between our 2-roll options (C310, C312) or 4-roll (C314) dispensers for optimal output.

Quick-load technology

All of our HCB systems have the easy-click system.

Handy flip mechanism

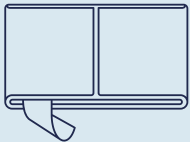

Reduced over-spin

Waste control

Safe-tear

Easy-to-slide handle

Split loading

C380 — C382
Jumbo Roll Tissue (JRT)
Dispensers

C382 – Single Roll

C380 – Double Roll

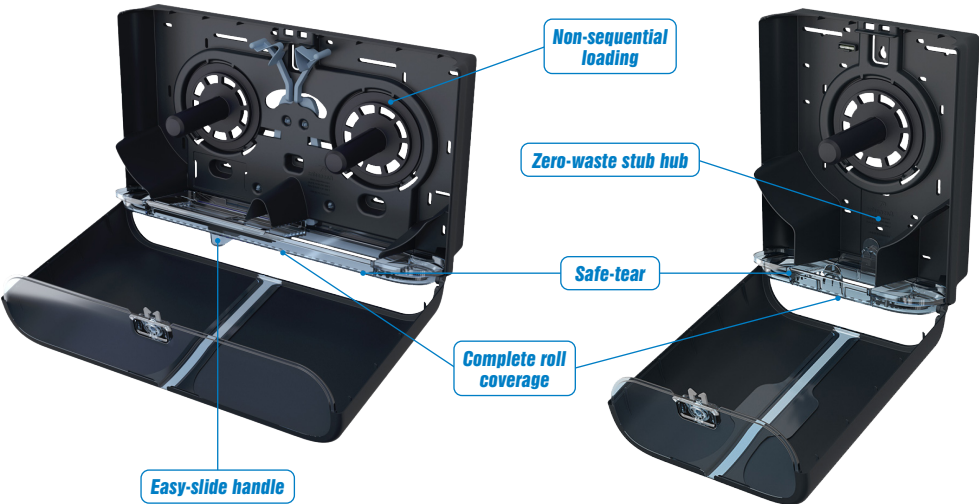

Cost-effective solutions
for high traffic areas

Our JRT systems are perfect for high-traffic areas, minimizing waste and roll changes while ensuring a long-lasting supply. Offered in single roll and double roll formats.

Distinctive Features

Hygienic and easy to use
Our JRT dispensers ensure optimal hygiene with full roll coverage and a safe-tear feature that prevents cuts, and allows for easy paper tearing in any direction. Plus, they offer quick and intuitive non-sequential, hassle-free reloading.

Increase your footage, reduce your waste
Smaller core size helps limit waste and increase footage per roll. Plus, both dispensers accommodate our jumbo 1250' refills, so you're sure to find an option that meets your capacity needs.

Multifold Towel & Interfold Napkin Systems

Reduce consumption and waste with our one-at-a-time dispensing systems. With their sleek design, they fit seamlessly in any decor.

 **C360
Multifold Towel
Countertop Dispenser**

*Elegant, sophisticated design
with sleek, upscale aesthetics*

Perfect for a more modern space, this is the ideal countertop solution for kitchens, cafeterias and restrooms with moderate traffic or in any other limited-space areas.

Distinctive Features

Quick, safe and easy to load!

With its keyless design, you only need one hand to easily open and refill the dispenser.

One-at-a-time dispensing

Reduces consumption and waste.

Improves hygiene and reduces cleaning costs

Helps keep the floor dry and avoids slipping incidents when placed on a countertop close to a sink.

Two different towel size options

The first and only innovative countertop dispenser that can support two different sizes of hand towel paper, with the use of retrofit spacers*.

* Available refill sizes: Without retrofit spacers: 9.1" x 9.45" | With retrofit spacers: 8" x 9.45"

 **C402 — C440
Interfold Napkin
Dispensers**

C402 – Tabletop

C440 – Countertop

*Perfect for a variety of businesses
depending on your space*

From bustling restaurants and cozy cafes, to office break rooms and home kitchens, our dispensers ensure easy access to napkins for any occasion. Choose from either our tabletop or countertop formats, depending on your business, space and capacity requirements.

Distinctive Features

One-at-a-time napkin dispensing

Benefit from 25% reduction in consumption and waste compared to traditional napkin dispensers with our easy, one-at-a-time dispensing.

Quick-check and easy maintenance

Translucent cover makes it easy to monitor napkin levels without opening the dispenser.

On Display™ window insert

Turn your Cascades PRO Tandem® dispensers into powerful marketing tools using the On Display™ window insert.

Certification legend

CMA-certified products are compostable in industrial facilities. They meet the certification's acceptability standards for product decomposition in industrial composting facilities.

Green Seal® certified products are made from 100% recycled fiber, with a requirement for post-consumer fiber content. Green Seal® also certifies that products are manufactured with respect for resources, using less water and energy, and without the use of chlorine in the bleaching process.

UL-ECOLOGO® certified products have a low environmental impact thanks to the required environmental performance standards, including multi-criteria life-cycle based criteria.

FSC® certification guarantees that the virgin fibers used in our products come from forests managed according to strict rules. It is the most widely recognized, notably for its rigor and the inclusion of social criteria in land management. FSC® also enables us to meet our customers' objectives in terms of responsible sourcing of forest resources.
